

# Outcomes Reports

## Article Number

000088663

## Information

The home screen of Outcomes provides an immediate view the information most campuses are looking to report on:

## Learning data

- Visualization of which outcomes have data associated and which do not.
- Visualization of how many students have met or not met each outcome.

## Progress

- The total number of outcomes scheduled for data collection.
- The percentage (and raw number) of how many scheduled outcomes contain data.

You can look at this information based on your chosen timeframe by toggling the “term” between semesters and years.

Two types of labels are also provided for each outcome statement:

- Level on Bloom’s taxonomy.
- Level of learning (introduced, reinforced, mastered).

General Education Learning Goal 2

## Critical Thinking

Students will demonstrate the ability to think critically and creatively.

▲ Apply ■ Mastered

By clicking on the **Activity** tab, you can quickly see who has been working with the outcomes and when they did it:

**Activity**  
Summary of actions taken on outcomes by this unit.

Click on the **Taxonomy** tab to see:

- How all the outcomes statements in a given unit are dispersed across Bloom's Taxonomy
- Which statements are not measurable, uncategorized, or in multiple categories and for what reason(s)
