

Encompass - Tracking History

Article Number

000087362

Information

The Tracking History shows all of the member tracking actions in the online community of the member who's record is being viewed.

This view takes the current Member / Site Statistics tracking application and breaks it down by each member, so that clients can see all of the specific member's activity in the community – Login, updated profile, posted photo, etc.

These tracking actions are compiled once a day, in the middle of the night, United States Central Standard Time.

Search by Action

In the "Name" column, type in the name of the tracking action you want to focus on then click the icon to view the search parameters that you can apply to that value.
