

Suggested Jenzabar Tables

Article Number

000089520

Information

Accounts

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
ADVISOR_STUD_TABLE	Maps advisors to students	-
IND_POS_HIST	Staff position history	-
FACULTY_LOAD_TABLE	Assigns faculty to sections	-
NAME_MASTER	Name information all individuals	-
STUDENT_MASTER	Details about the student	-
STUDENT_TERM_SUM	Summary of the term by student	-
TW_TIME_CTRL	Defines when online registration opens by term.	Used in term logic
TW_WEB_SECURITY	May be used to get the external id	-
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic

Organizational Units

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
CATALOG_MASTER	Individual course listings	-
DEPARTMENT	Defines departments	-
DIVISION_DEF	Defines the institutional divisions	-
INSTIT_DIVISION_DEF	Defines and maps the divisions	-
ORG_MASTER	All organizations	-

Academic Terms

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
SUBTERM_DEF	Defines the subterms	-
	Defines when online registration	

TW_TIME_CTRL	opens by term.	Used in term logic
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic

Courses

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
CATALOG_MASTER	Individual course listings	-
INSTIT_DIVISION_DEF	Defines and maps the divisions	-

Sections

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
INSTIT_DIVISION_DEF	Defines and maps the divisions	-
LOCATION_MASTER	Defines the different locations for the institution	-
ROOM_MASTER	Defines rooms at the institution	-
SECTION_MASTER	Section details	-
TW_TIME_CTRL	Defines when online registration opens by term.	Used in term logic
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic

Section Attributes

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary. Other tables needed will depend on how your institution is using attributes.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
SECTION_MASTER	Section details	-
TABLE_DETAIL	General alignment table for different codes	-
TW_TIME_CTRL	Defines when online registration opens by term.	Used in term logic
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic

Instructors

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
FACULTY_LOAD_TABLE	Assigns faculty to sections	-
NAME_MASTER	Name information all individuals	-
SECTION_MASTER	Section details	-
TW_TIME_CTRL	Defines when online registration opens by term.	Used in term logic
TW_WEB_SECURITY	May be used to get the external id	-
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic

Enrollments

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
GRADE_DEFINITION	Defines the institutional grades	-
GRADE_SCALE_DEF	Defines the scale information for individual grades	-
NAME_MASTER	Name information all individuals	-
SECTION_MASTER	Section details	-
STUD_CRS_HIST	Holds all enrollments	Ensure to pull max sequence number for student course history in the appropriate term.
STUDENT_MASTER	Details about the student	-
STUDENT_TERM_SUM	Summary of the term by student	-
TW_TIME_CTRL	Defines when online registration opens by term.	Used in term logic
TW_WEB_SECURITY	May be used to get the external id	-
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic

Remove Instructors

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
NAME_MASTER	Name information all individuals	-
TW_TIME_CTRL	Defines when online registration opens by term.	Used in term logic
TW_WEB_SECURITY	May be used to get the external id	-
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic

Academic Programs

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
MAJOR_TABLE	Ties courses to majors	-
MINOR_MAJOR	Ties minors to majors	-
PROGRAM_DEF	Defines programs and attaches to majors and minors	-
TABLE_DETAIL	General alignment table for different codes	-

Demographics

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary.

Faculty

<i>Table</i>	<i>Description</i>	<i>Notes</i>
ADDRESS_MASTER	Address information for all individuals	-
BIOGRAPH_MASTER	Biographical information for all individuals	-
BUILDING_MASTER	Campus building information	-
DEPARTMENT	Defined departments	-
DIVISON_DEF	Defines the institutional divisions	-
EMPL_MASTER	Employment information	-
EMPL_WRK_LOC	Ties employees to a specific work location	-
ETHNIC_RACE_REPORT	Provides ethnicity information for all individuals	-

ETHNIC_REPORT_DEF	Defines the different ethnicities	-
FACULTY_LOAD_TABLE	Assigns faculty to sections	-
FACULTY_MASTER	Faculty details	
IND_POS_HIST	Staff position history	-
INSTIT_DIVISION_DEF	Defines and maps the divisions	-
NAME_MASTER	Name information all individuals	-
ORG_POS_MAST	Maps individuals to specific organization positions	-
RACE_REPORT_DEF	Defines the races	-
ROOM_MASTER	Defines rooms at the institution	-
TABLE_DETAIL	General alignment table for different codes	-
TW_TIME_CTRL	Defines when online registration opens by term.	Used in term logic
TW_WEB_SECURITY	May be used to get the external id	-
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic

Student

<i>Table</i>	<i>Description</i>	<i>Notes</i>
ACAD_STANDING_DEF	Different standings with description; probation, suspension, etc.	-
AD_ORG_TRACKING	Organization information tied to students. Used for HS and previous institution data	-
ADDRESS_MASTER	Address information for all individuals	-
BIOGRAPH_MASTER	Biographical information for all individuals	-
BUILDING_MASTER	Campus building information	-
CLASS_DEFINITION	Student class definitions	-
CONCENTRATION_DEF	Defines the different concentrations. pre-law, pre-med, etc.	-
CONCENTRATION_MAJOR	Ties concentrations to majors	-
DEGREE_DEF	Defines the different degrees offered at the institution	-
DEGREE_HISTORY	Ties the student to the degrees	May need to pivot data to pull multiple majors/minors/certificates.
DEGREE_HISTORY_ARCHIVE	Past degree for students that has been archived	-

DIVISON_DEF	Defines the institutional devisions	-
ETHNIC_RACE_REPORT	Provides ethnicity information for all individuals	-
ETHNIC_REPORT_DEF	Defines the different ethnicities	-
HIGHEST_TEST_SCORE	Test score results.	May need to pivot data to pull multiple tests' scores.
HONOR_DEFINITION	Defines the different honors categories	-
HONORS_PROGRAM	Defines the institutional honors programs	-
INSTIT_DIVISION_DEF	Defines and maps the divisions	-
LOCATION_MASTER	Defines the different locations for the institution	-
MAJOR_MINOR_DEF	Defines the majors and the minors	-
MILITARY_SERVICE_MASTER	Ties individuals to military service	-
MILITARY_STATUS_DEF	Defines the military services	-
MINOR_MAJOR	Ties minors to majors	-
NAME_MASTER	Name information all individuals	-
ORG_POS_MAST	Maps individuals to speicific organization positions	-
ORG_TRACKING	Attaches individuals with organizations	-
PROGRAM_DEF	Defines programs and attaches to majors and minors	-
RACE_REPORT_DEF	Defines the races	-
ROOM_ASSIGN	Ties students to residential rooms	-
ROOM_MASTER	Defines rooms at the institution	-
SPORT_TRACKING	Ties students to athletics	-
STUD_CRHS_HIST	Holds all enrollments	-
STUD_SESS_ASSIGN	Ties students with session information (non-academic information)	-
STUD_TERM_SUM_DIV	Summary of student data by term and division	-
STUDENT_DIV_MAST	Details of the student and division information	-
STUDENT_MASTER	Details about the student	-
STUDENT_TERM_SUM	Summary of the term by student	-
TABLE_DETAIL	General alignment table for different codes	-
TEST_DEFINITION	Defines the tests and their codes	-
TEST_ELEMENT_DEF	Defines the different elements of each test	-

TEST_SCORES	Unique test scores by student	-
TEST_SCORES_DETAIL	Unique test scores broken down further	-
TW_TIME_CTRL	Defines when online registration opens by term.	Used in term logic
TW_WEB_SECURITY	May be used to get the external id	-
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic

Beacon Connections

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary. This table list covers connecting students to advisors. Other connections will depend on individual implementation choices.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
ADVISOR_MASTER	Advisor listings	-
ADVISOR_STUD_TABLE	Maps advisors to students	-
ADVISOR_TYPE_DEF	Different types of advisors	-
FACULTY_LOAD_TABLE	Assigns faculty to sections	-
MAJOR_TABLE	Ties courses to majors	-
SECTION_MASTER	Section details	
STUD_CRS_HIST	Holds all enrollments	Ensure to pull max sequence number for student course history in the appropriate term.
TW_TIME_CTRL	Defines when online registration opens by term.	Used in term logic
TW_WEB_SECURITY	May be used to get the external id	-
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic

Beacon Academic Records

The tables and notes listed below are suggestions as individual Jenzabar implementations may vary. This data may need to be extracted from a Learning Management System instead of Jenzabar.

<i>Table</i>	<i>Description</i>	<i>Notes</i>
ABSENCE_DEF	Different types of absences	-
DEPARTMENT	Defined departments	-
GRADE_DEFINITION	Defines the institutional grades	-

GRADE_SCALE_DEF	Defines the scale information for individual grades	-
STUD_CRIS_HIST	Holds all enrollments	Ensure to pull max sequence number for student course history in the appropriate term.
STUDENT_MIDTRM_SUM	Summary of the midterm information by student	-
TW_TIME_CTRL	Defines when online registration opens by term.	Used in term logic
TW_WEB_SECURITY	May be used to get the external id	-
YEAR_TERM_TABLE	Defines all terms for the academic years	Used in term logic
