## Summary

The Next Thread Link is missing in the thread box on the message view screen of the discussion board when the message view screen is invoked by clicking on a REPLY to a thread from the tree-view of a discussion forum.

---

## Symptoms

"Next Thread" Link is missing in the thread box on the message view screen of the discussion board.

## Steps to Replicate

1. Navigate to a discussion board.
  2. Select "tree-view."
  3. Expand a thread to see replies to that thread.
  4. Click on one of the 'replies.' The thread will display correctly; however, the "Next thread" link is missing, and only the "Previous Thread" link shows in the thread box.
