Event Check-in App Pass Customization

Administrators can customize your campus's Event Pass by providing us with a logo and accent color for the pass. Please see the following list of guidelines for the logo.

- Logo should be in vector format so we can resize it without losing quality. Typically, vector logos are found as .eps or .ai file types. If you cannot provide a vector logo, please provide a transparent .png.
- Logo should have a width-height ratio between 1:1 to 3:1. In other words, the width should not exceed three times the height.
- The logo will appear on a white background so please avoid white text.

- At its smallest, the logo will display at 50 px tall. Avoid small text as it will not be legible at this size. Simpler is better when branding the event pass!
